The world's premium cloud-based school management information system

- Comprehensive platform with everything in one place
- All essential Information at your fingertips

- Intuitive navigation
- Highly flexible and customisable

Everything in one place

The Engage school management solution is a sophisticated platform that provides a single source of truth in just one system – no need for costly integrations.

School operations

- Online admissions from enquiry to enrolment
- Alert notification system and communication tools
- Marketing analysis and analytics dashboard
- Document management system

Parent and student engagement

- Comprehensive parent portal and app
- Academic and compliance reporting
- Full booking system for activities, excursions and parent evenings
- View balances on account and securely update personal data online

Powerful integrations

- All essential information is in the one system
- Leverage restful API and Wonde integrations to build your own ecosystem

Finance for schools

- Invoicing, collections and debtor management
- Full sales ledger capability and integration into major accounting systems
- Split billing and online payments

Teaching and student wellbeing

- Single interface managing all teaching tasks
- Industry leading Daybook tool which enables form building and customised workflows
- Attendance, Timetabling, staff cover and room booking
- Performance tools & assessment and reporting
- Wellbeing tracking, medical information and incidents

Information at your Fingertips

Easily create, access, share and update essential school information tailored to individual needs.

Essential student information when you need it from wellbeing, learning plans and permissions.

Whole school performance analytics at the click of a button with the comprehensive reporting and dashboard engine.

Flexible and personalised to fit your needs

Fully customisable and highly flexible product design to include your school branding, workflows that fit your school's needs, terminology, multilanguage and currency options.

Built for school with complex fees and billing requirements, multiple income streams, compliance ready.

Monitor your school's performance to make data informed decisions with a report creator and data dashboards.

Modular system so you can choose the modules that fit your needs.

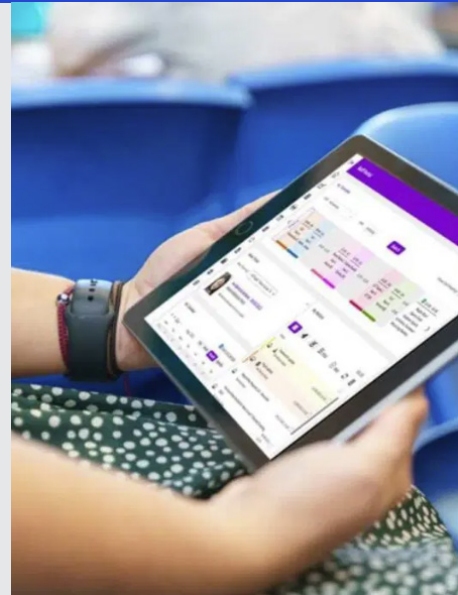

Why join Engage from Education Horizons

We offer dedicated EdTech specialism with over 40 years' experience in the education industry. As well as personalised onboarding and empowered expert advice to help with workflow configuration, report creation, training and much more.

We'll assign a customer success manager to ensure you are getting the most out of your platform, free of charge, as it's all part of the service.

"Using Engage as our single source of truth we have been able to achieve consolidated data and reporting in a short time frame, which gives us improved visibility of our schools' performance."
