Cloud-native

- Anywhere, anytime, any device
- Makes the complex simple
- Microservices architecture

Meeting your essential school needs

School Operations

- Student admissions and lifecycle
- Timetabling
- Secure permission
- One ID for each user
- Capture and manage complex relationships

Finance for schools

- Managing complex fees, billing, debtor management and receipting
- General ledger integration to Xero, MYOB & Quickbooks
- Online payment options with Stripe and Fat Zebra so you get you paid up to 13 x faster

Reporting done in clicks

- Compliance reporting made easy
- Configure academic reports and set up templates
- Visual dashboards and workflows to manage reporting writing and proofing
- Measure student performance with longitudinal data

Attendance, Learning and Wellbeing

- Minute by minute attendance reports
- Captures learning progress using unique longitudinal reporting with symbols and grades
- Wellbeing observations and flags for follow-up
- Medical incidents reporting including medical and allergy alerts
- Automated **Google Classroom** and **Teams** rostering

Two-way parent communications

- Direct messaging via email and App, so parents are kept up to date
- Visibility on attendance and emergency info, forms and event consent and student timetables

Open Platform

- Build your own ecosystem quickly and easily via our Wonde integration or via our open APIs
- AWS Partner - Hosted on the AWS platform

What does Next Generation mean for Ed Tech?

A platform that adapts to your needs

Tired of adapting to software? Zunia gives you real choice in how you capture data, and how you use it – driving everything from rigid compliance to flexible academic reporting

Easy to choose, learn and use

We've taken 40 years' experience with schools to make the complex simple in Zunia – intuitive set-up, interface and navigation make it easy for your whole school to move to Zunia

Future Proof

Zunia was built from scratch in the cloud. Our underlying microservices architecture makes growing and integrating Zunia a dream – making Zunia the right choice for today and tomorrow

"Zunia is simple and intuitive for educators to use and has relevance and flexibility in small schools. Tracking student attendance is made easier."
Todd Flanagan, Principal at Yiyili Aboriginal School
