

# SEQTA Analyze

**SEQTA Analyze is a powerful data analytics tool that helps schools understand their current performance and what they need to do to improve.**

Featuring a wide range of pre-defined and customisable reports, covering areas including academic achievement, academic progress, attendance, wellbeing analytics and more, SEQTA Analyze enables you leverage your organic teaching and learning data to and proactively support your school, staff and students.

## How does SEQTA Analyze support your school?

### Identify problems before they arise

SEQTA Analyze helps you see trends and flag potential issues before they manifest. With the ability to set triggers that automatically generate and share reports with others, SEQTA Analyze allows you and your team to work proactively, rather than reactively, across all areas of learning, wellbeing and attendance.

### Automate jobs that previously took days to complete

Not only is cobbling together disparate datasets time-consuming and tedious, it presents risk for human error and outdated data. SEQTA Analyze eliminates the need for manual data compilation by providing you with meaningful dashboards built from real-time information, enabling you to reallocate your team's time and effort to other areas.

### More than compliance – really know and understand each learner

SEQTA Analyze helps you understand each student's engagement and progress. With a wide selection of reports and dashboards available, SEQTA Analyze can help your team not only meets its legal requirements but identify and proactively respond to student issues and challenges.

## SEQTA Analyze is available in 3 levels

<b>LEVEL 1</b>	Access to 3 Dashboards, each containing up to 4 Reports
<b>LEVEL 2</b>	Access to 6 Dashboards, each containing up to 4 Reports + Modification of selected reports to 1 hour of developer time
<b>LEVEL 3</b>	Access to 9 Dashboards, each containing up to 4 Reports + Modification of selected reports to 1 hour of developer time

*Additional dashboards and support services are available on request.*

SEQTA Analyze is an additional flat monthly fee based on the selected level of product. Contact us for more information about SEQTA Analyze or to arrange a quote for your school.
