

The SEQTA Ecosystem

SEQTA is the Learning Management System that reduces administration and makes learning visible.

SEQTA offers a range of products that work together to provide a powerful collaborative teaching and learning management system. Together, the SEQTA Suite allows schools to easily track individual student progress so that they can see the state and trends of each student's individual learning journey.

Why SEQTA?

Built for real teacher workflows

SEQTA supports and streamlines existing teacher workflows while giving teachers the visibility they require to make informed decisions. Easily capture and leverage essential data for each student in real-time, including wellbeing, attendance, assessments, progress and reporting.

Better decision-making

More than compliance, SEQTA is designed from the ground up to help educators truly understand each learner. Longitudinal views in SEQTA Teach showcase progress, achievement and relative performance are supported by the rich data interpretation capabilities of SEQTA Analyse, exposing trends and helping schools understand and proactively respond to student issues and challenges.

Engage your whole community

SEQTA creates an organic flow of data between all stakeholders in the school community, ensuring relevant information is always available to those who need it. SEQTA's student portal leverages research-driven prediction and feedback mechanisms to amplify learning. Results, reports and teacher comments are pushed to parents in real-time via a dedicated parent portal, helping them play a leading role in their child's learning development without any extra burden on teachers.

The SEQTA suite of products

Teach

SEQTA Teach is the centrepiece of the SEQTA ecosystem, making student information visible and helping teachers make better decisions for each learner.

Learn

SEQTA Learn is an integrated student portal which forms an optional part of the SEQTA Teach package. SEQTA Learn provides students with 24/7 access to their school resources empowering them to take control of their learning.

Engage

SEQTA Engage is a dedicated parent portal within SEQTA Teach, creating visibility across their child's learning journey without placing any extra burden on teachers.

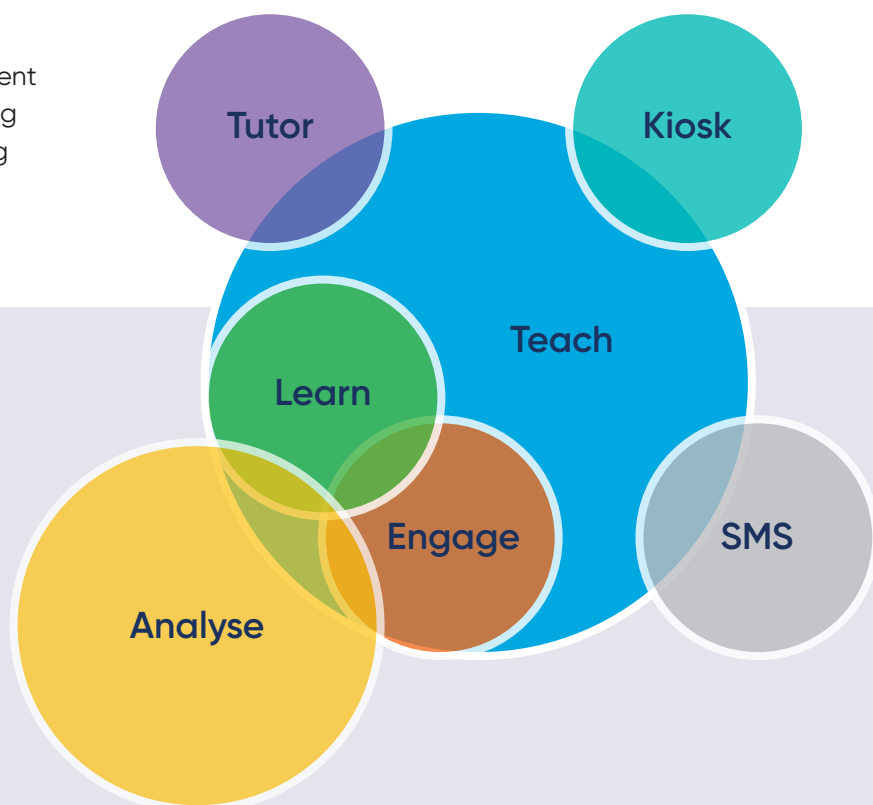

Kiosk

SEQTA Kiosk is an iPad app that tracks students' movements around the school campus via tag-ins to fixed checkpoints.

Tutor

SEQTA Tutor integrates with SEQTA Teach, Learn and Engage to track student participation outside the core curriculum, including music lessons, sporting sessions and other school activities.

How the SEQTA ecosystem works

SEQTA pricing is billed monthly as a per student fee based on the selected level. Additional products will attract a separate fee, which is also billed monthly. Contact us for more information about SEQTA or to arrange a quote for your school.
